

Very well run event on the day, the marshals and volunteers did a great job.

Thought the event was brilliantly organised and the route was nice.

However I would recommend different start waves for varying degrees of cycling abilities as there were some inexperienced cyclists mixed with seasoned cyclists which caused hazards at times.

- Course Design. Excellent for beginners
- Organisation .excellent. well executed
- Safety.excellent.special note to bike marshals.
- they were v.professional.
- Catering.we should look to have special portions left for volunteers/bike marshals.

I thought the Club cycle went very well yesterday, it was well organised, the distance was challenging but manageable, the crowd was well paced and marshalled, and the food very good at then end.

A Sunday morning with quiet roads was an important aspect of this.

For the future - I think the organisers may wish to consider the differing levels of ability and perhaps have a "lead group" and a slower "social group" - there were people who were not used to cycling in a group and were veering into the path of others. Two or more pit stops may have suited some as if a group breaks up - it can lead to people getting lost / off course !

Good event though - well done,

Absolutely very well run event.

Two things that need to be looked at:

Tea and coffee should be free. Had to pay €4 for 2 coffees where any other sportives supply them doc!

Also not everybody eats what hook and Ladder had on the menu, sometimes a simple sandwich and a slice of cake can go a long way!

Already looking forward to next year.

- Course Design - 10 out of 10
- Organisation - 10 out of 10
- Safety - 10 out of 10
- Catering - 20 out of 10, amazing food!

Excellent event , one suggestion for next year would be to have a designated toilet stop.

When we stopped in Ballingarry local residents were upset(understandably) to see people relieving themselves at the side of the road.

Excellent all round....

Mike

FEEDBACK FROM PARTICIPANTS ON THE CLUB CYCLE_24 April 2016

I thought the day went really well & we had the weather which always helps.

The first stop in Ballingarry needed toilets or the next time pull into a local club or something, a cup of tea there would have been nice, but not a deal breaker :)

More signage would have been great, particularly out of Croom, some people got lost.

Other than that it was a super day, really well put together & the route was good.

Thanks for everything & looking forward to next year.
